

# Call for abstracts to the BUP Symposium 2021

Dear all,

The Baltic University Programme's main aim is to support building strong regional educational and research communities. As a part of this, we are arranging a **scientific online symposium 19-20 October 2021**. The aim of the Symposium 2021 is to be a platform where the regional educational and research communities can spread their research findings and get together and to get to know each other better as colleagues at Participating Universities of The Baltic University Programme. We are challenging researchers from different disciplines with an interest in **the Baltic Sea Region as an empirical field** to discuss Sustainable Development in the Baltic Sea Region. We especially welcome presentations of research having an inter-/multi disciplinary approach. The BUP Symposium 2021 is:

- an opportunity to present and discuss research
- an arena where to meet colleagues and start off collaborations
- an opportunity to get published and spread your research

The symposium will have nine themed sessions, covering the BUP Themes:

Climate Change, Renewable Energy, Sustainable Societies, Sustainable Water Resources, Urban-Rural Development, Bio- Circular Economy, Education for Sustainable Development (ESD), Sustainable Tourism and Sustainable Food Systems.

### **Update 1: Postponing deadline**

To accommodate for even more colleagues to present at the symposium, we have decided to postpone the deadline for submission of abstracts until 8 August 2021.

### **Update 2: Invite more networks**

Our region and programme have many touch points with others, for example ESSSR and UniAdriatic. We have therefore invited them to join the symposium, giving you the chance to meet with colleagues in other geographical regions.

### **Update 3: Support to young scholars**

Young scholars with accepted abstracts will be invited to submit a full paper to one of the Special Issues that the BUP will be guest editors for. The five most promising papers will be paid for by BUP.

### **Update 4: Publishing opportunities**

There will be several special issues in scientific journals that will be open for researchers from BUP Participating Universities to submit their full paper. The BUP will support the publishing of about 10 of the most promising.

Presenting at the BUP Symposium 2021 can be done in two ways; orally or in a poster session. Both will be presented online. You need to submit an abstract for both alternatives. To do an oral presentation at the BUP Symposium 2021, we invite you to submit an abstract of the research you would like to present. To present your research in a scientific poster we would likewise need an abstract of the research you would like to present. Instructions and a form for either of the two options can be found on our web page.

**Deadline for the call for abstracts is postponed until 8 August 2021.**

We hope to see you on-line in October,
